Well-known Quebec author Diane Groulx has drawn many of her previous book ideas from her experiences in Nunavik, a community North-West of Quebec. It is her children and family who gave her the inspiration for this latest release. Active in the literary domain for the last eight years and author of sixteen books, Diane Groulx is known and liked by many young readers. "Le renne de Robin," is based on an event that happened in her family. For Diane Groulx, Christmas is a special time filled with magic and sharing.

**Story : (6 years and up)**

As Christmas night approaches everyone wants to open the gifts. Robin's family is nervous because what he has asked for is so unusual. What do you do when you are eight years old and don't want to disappoint your younger brother? Is it possible to be too old to believe in the magic of Christmas?

**Children enjoy the true story of Robin. Through creativity, tenderness and love the author describes with perfection the special bond that an older sister has with her younger brother. For Robin, Christmas is quality time.**

**Excerpt from text:**

- Et un de vos rennes, redit Robin, sûr de lui. Tu sais, les rennes qui tirent le traîneau rempli de cadeaux !
- Oui, bien sûr, je les connais. Mais tu veux un des rennes du Père Noël ??? réussis-je à dire, étonnée.
- Tu crois que maman voudra ? s'inquiète-t-il tout à coup.
